WHO WE ARE

Northeast Capital Fund II, LLC is an innovative mortgage financing and lending institution centered around an ecosystem that transacts cutting-edge asset-based lending across a Blockchain platform.

NCF II is in pursuit of financial inclusion of the masses to help rebuild communities across America and to make capital available to all. No matter what, we will continue to advocate, educate and introduce some of the most innovative financial programs the financial industry has ever seen.

WHAT WE CARE ABOUT

ACCESS TO CAPITAL - The lack of access to capital limits financial choices and opportunities in underserved communities; likewise, **NCF II provides a solid foundation on which a community can grow and prosper by providing new innovative avenues to home ownership, business ownership and asset acquisition.**

When capital is available to all, it allows people to improve their economic way of life; likewise, ASSETcoin increases asset acquisition opportunities to those living in capital challenged communities.

FINANCIAL INCLUSION

Because 1 out of 3 Americans cannot survive a financial crisis and over 90 million people do not have a savings account or money saved up for hardships. Society as a whole cannot continue to rely on traditional outdated methods and trends that fuel financial crisis' on a mass scale.

Northeast Capital Fund II, understands the key factor to economic well-being is the ability to withstand financial disruptions. ***Likewise our goal is to help as many Americans build wealth to sustain unexpected financial disruptions.***

We aim to change economic trends affecting many low and moderate wage earners in society. More importantly, we are here to help educate and guide hard working citizens to a better quality of life.

At its most basic level, financial inclusion starts with having a checking and savings bank account to start saving money for a rainy day. Likewise, NCF II presents a unique ecosystem designed to disrupt the system in order to create financial inclusion.

Because its true purpose is to create a new form of economic power, cryptocurrency is causing a paradigm shift towards virtual currency. Likewise; NCF II aims to do just that, ***“create a society where economic power is outside the control of States, Governments and Big Banks”.***

ASSETcoin represents a legacy & historical valued asset; not because it's a better form of money, but because it helps level the playing field thereby creating a more inclusive financial system.

Quote of the Month

“No work is insignificant. All labor that uplifts humanity has dignity and importance and should be undertaken with painstaking excellence.”

- Dr. Martin Luther King Jr.
